General

Read and keep the instruction manual

These assembly instructions belong to this LED Table lamp (in the following referred to as the "product"). It contains important information on start-up and handling.

Read the assembly instructions carefully before using the product, especially the safety instructions. Failure to follow these assembly instructions can result in serious injury or damage to the product.

The assembly instructions are based on the standards and regulations prevailing in the European Union. Furthermore, please observe any country-specific guidelines and laws abroad. Keep the assembly instructions for further use.

If you pass the product on to third parties, be sure to include these installation instructions.

Intended use

The product is designed for the lighting of and under dry and closed interiors. It is exclusively intended for private use and not suitable for commercial use.

Only use the product as described in these assembly instructions. Any other use is considered improper and can lead to property damage or even personal injury. The product is not a toy for children.

The manufacturer or dealer assumes no liability for damage caused by improper or incorrect use.

Explanation of symbols

The following symbols are used in this manual, on the product or on the packaging.

	<p>This symbol gives you useful additional information on commissioning and handling.</p>
	<p>Declaration of Conformity (see chapter "Declaration of Conformity"): Products marked with this symbol comply with all applicable community regulations of the European Economic Area.</p>
 <p>Austausch nur durch Fachmann Exchange only by a specialist Vyměňujte pouze odborníkem Vyměňajte iba odborníkom</p>	<p>The light source of the product can be replaced by a specialist.</p>
 <p>Austausch nur durch Fachmann Exchange only by a specialist Vyměňujte pouze odborníkem Vyměňajte iba odborníkom</p>	<p>The control gear of the product can be replaced by a specialist.</p>

Safety

Notice statement

The following symbols and signal words are used in this user manual, on the product or on the packaging.

This signal symbol/word indicates a hazard with a medium level of risk which, if not avoided, can result in death or serious injury.

This signal symbol/word indicates a hazard with a low level of risk which, if not avoided, could result in minor or moderate injury.

This signal word warns of possible damage to property.

General safety instructions

NOTICE!

Risk of damage!

- Only connect the product if the mains voltage of the charger matches the specification on the rating plate.
- Do not operate the product if there is any visible damage or the charging cable is defective.
- Do not make any modifications on the product.
- Never attempt to repair the product yourself, have it repaired by a certified electrician. Do not, under any circumstances, open the housing and do not insert any objects into the housing.
- Do not operate the product with wet hands. Never handle the power supply unit and cable with wet or damp hands.
- Never use the product near water or other liquids, or in places where water or other liquids may accumulate. Do not use the product in damp rooms or in the rain. Also protect the power supply unit and the cable from moisture.
- Disconnect the power supply unit from the power supply when not in use and during cleaning.

Risk of injury!

Incorrect operation due to improper handling can result in injuries. This poses hazards for children and people with reduced physical, sensory or mental abilities (e.g. partially disabled, elderly people with limited physical and mental abilities) or lack of experience and knowledge (e.g. older children).

- Children aged 8 and over and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge may only use the product if they are supervised or have been instructed in the safe use of the product and understand the resulting hazards.
- Children under the age of 8 are not allowed to operate the product.
- Do not operate the product with wet hands. Never handle the power supply unit or cable with wet or damp hands.
- Never use the product near water or other liquids or in places where water or other liquids may accumulate. Do not use the product in wet

rooms or in the rain. Also protect the power supply unit and the cable from moisture.

- Disconnect the power supply from the mains during non-use and cleaning.
- Do not allow cleaning and user maintenance to be carried out by children without supervision.
- Do not leave the product unattended while it is in use.
- Do not allow children to play with the packaging foil. You can get caught in it and suffocate while playing.

Risk of injury!

The LEDs in this product are very bright. Looking directly at the light for long periods of time or from a short distance can cause retinal damage.

- Never look directly into the light for long periods of time or at close range.
- Do not look at the switched on product with an optical instrument (e.g. with a magnifying glass).

NOTICE!

Risk of damage!

Improper handling can damage the product.

- Set up the product on an easily accessible, flat, dry, heat-resistant and sufficiently stable work surface.
- Do not place the product on the edge or edge of the work surface.
- Avoid heat build-up by not placing the product directly against a wall or under wall cupboards or similar places.
- Do not place the product on or near hot surfaces.
- Do not bring cables into contact with hot parts.
- Never expose the product to high temperatures, extreme cold, or weather conditions.
- Protect the product from strong vibrations and impacts.
- Always turn off the product when not in use.
- Do not use the product if the accessories are damaged.
- If any of the external cables of this luminaire are damaged, they must only be replaced by the manufacturer, a service agent or similarly qualified personnel in order to avoid danger from live parts.

Product description

The product is a LED table lamp for use in closed and dry indoor spaces. Luminosity of the luminaire are controlled via the touch switch. The luminaire is switched on/off and dimming by touching the touch lamp body.

Check product and scope of delivery

NOTICE!

Risk of damage!

If you are not careful when opening the packaging with a sharp knife or other pointed objects, the product can easily get damaged.

Be very careful when opening.

1. Remove the product from the packaging.
2. Check whether the delivery is complete (see Fig. 1 and component list).
3. Check whether the product or individual parts are damaged. If so, do not use the product. Contact the manufacturer at the address provided on the back.

Initial start-up

Basic cleaning

1. Remove the packaging material and all protective films.
2. Before using the product for the first time, clean all parts of the product as described in the "Cleaning" section.

Assembly

1. Connect the LED driver to power supply.
The lamp is now fully assembled.

Set up the product

- Place the LED Table Lamp on a flat, stable surface.
- Connect the LED driver to the power supply.

Operation

Tap the flat of the touch switch for on or off and dimming.

Dimming steps	Modes
0	OFF
I	10 % ON
II	50 % ON
III	100 % ON

Troubleshooting

Problem	Possible Cause	Solution
The LED light does not light up.	The power supply unit and cable not	Check the plug connection to the socket.
	There is no supply voltage.	Check the supply voltage as well as the cable, fuse and charger for functionality.
The LED light does not light up.	The LED light is defective.	The LED luminaire is defective. Contact the customer service or a certified electrician.

Maintenance

NOTICE!

Risk of short circuit!

Water or other liquids that have entered the housing can cause a short circuit.

- Never immerse the product in water or other liquids.
- Make sure that no water or other liquids get into the housing.

NOTICE!

Risk of damage!

Improper handling of the product can lead to damage to the product.

- Do not use any aggressive cleaning agents, brushes with metal or nylon bristles or sharp or metal cleaning objects such as knives, hard spatulas or similar. These can damage the surfaces.
- Never put the product in the dishwasher. You will destroy it by doing so.

Cleaning

1. Disconnect the product from the power supply before cleaning.
2. Let the product cool down completely.
3. Wipe the product with a slightly damp cloth. Then let all the parts dry completely.

Maintenance

Have a specialist replace defective lamps/control gear with components of the same type (see section "Technical data").

Storage

All parts must be completely dry before storage.

- Always keep the product in a dry location.
- Keep the product out of direct sunlight.
- Keep the product out of the reach of children, securely closed and at room temperature.

Technical data

Luminaire:

Model:	AMORE TT1D, AMORE TT1D BK
Article number:	10689080, 11688345
Input voltage:	220-240 V~ 50/60 Hz
Wattage:	Max. 5 Watt
Dimensions (in mm):	140 x 140 x 170 (L x W x H)
Total weight:	0,42 kg

Light Source:

Light source voltage:	12 VDC
Light source model:	AMORE TT1D
Light source type:	LED
Light source power:	Max. 4,2 Watt

This product contains a light source of energy efficiency class "G".
The light source and control gear of this product can be replaced by a specialist.

Disposal

Disposal of packaging

The dual systems organize the collection, sorting and recycling of sales packaging and thus follow the requirements of the German Packaging Act. Dispose of packaging made of cardboard/paper in the wastepaper bin, packaging made of plastic, metal or composite materials in the yellow bin/yellow sack and packaging made of glass, if necessary by colour, in the waste glass containers provided for this purpose.

Disposal of product

ENVIRONMENTAL PROTECTION

→ European Waste Framework Directive (Directive 2008/98/EG)

→ WEEE Directive 2012/19/EU

(German federal law: e.g. KrWG, VerpackG, BatterieG, ElektroG etc.)

(Applicable in the European Union and other European countries with separate collection systems for recyclable materials)

Old devices must not be disposed with household waste!

If the product is no longer used, every end user is legally obliged to dispose of old devices separately from household waste. This can, e.g. be at the municipal collection points or in the sales outlets. The delivery of small old devices (edge length max. 25 cm) in normal household quantities is free of charge.

However, larger old devices can also be given away free of charge for disposal when purchasing new devices of the same type and function. This ensures that old devices can be recycled or disposed of properly and that the raw materials can be fed into the recycling cycle. The end user must register the collection of large devices at the time of purchase and is responsible for deleting personal data before delivery/collection. Products marked with the WEEE symbol (crossed-out wheeled bin) meet the legal requirements and WEEE guidelines.

Declaration of Conformity

Declaration of Conformity: Products marked with this symbol comply with all applicable community regulations of the European Economic Area. The device was evaluated according to European guidelines, which are listed in the Declaration of Conformity. You therefore own a product that, in terms of construction, meets the protection goals of the European Community for the safe operation of devices. The Declaration of Conformity can be accessed on the website www.khg-info.de.
